

Maritime

The Oceana Maritime Academy offers career development for those wishing to work at sea. We partner with key organisations to ensure we deliver quality training relevant to the fishing industry. The Oceana Maritime Academy is focused on ensuring we will build pipeline of talent in the fishing industry to address the lack of skilled individuals coming up through the ranks.

SAMSA Accredited Fishing Qualifications:

These qualifications are offered in partnership with other training providers and the entry requirements are dependant on the vessel you currently sail on and what sea time you have.

Deck Officer Fishing:

Prepares a learner to safely perform their watch duties onboard as a Deck officer on a Fishing Vessel either over or under 24m. The course covers chart work, navigation, Fishing safety, emergency procedures, and Maritime Communications.

Accreditation: SAMSA

Duration: 47 Days

Relevant Seetime required: 12 months

Skipper Fishing:

Prepares a learner to safely perform their watch duties onboard as a Skipper/Deck officer on a Fishing Vessel either over or under 24m. The course covers chart work, navigation, Naval Architecture, Ships power plants, Marine Environmental studies, Fishing safety, emergency procedures, and Maritime Communications.

Accreditation: SAMSA

Duration: 70 Days

Relevant Seetime required: 12 months

Marine Motorman Qualifications at all levels:

The Marine Motorman qualifications allow the vessel engineer to sail on vessels with different size engines depending on their qualification. The courses cover subjects relating to engineering knowledge, naval architecture, engine maintenance, repairs in the event of a breakdown, safety procedures.

MM2: Chief engineer on <350kw, second engineer <1000kw

MM1: Chief engineer <1000kw

MMHG: Chief Engineer >750kw and <2000kw

In addition to the qualifications the Maritime Academy offers the following SAMSA accredited courses on its premises as well as at satellite training facilities on the West Coast.
